Sprint Report #3
Looking For Slugs
Team Name
11/20/23

Actions to stop doing:
- Adding features without proper documentation
  - Sometimes technology would be added without proper additions to the README and it would cause roadblocks for people trying to access the project

Actions to start doing:
- Deciding earlier in the sprint features that need to be cut instead of continuously pushing items into next sprint

Actions to keep doing:
- Keep communicating
  - In addition to daily scrum meetings, giving updates through discord also was very helpful
- Task Delegation
  - Having tasks always available to pick up in case developers finish their tasks early. This allows us to always have something to do and be efficient.

Work completed/Not completed:
- Completed:
  - User Dashboard
  - Create Event Functionality
  - Join Event Functionality
  - Expanded Box View
  - Firebase Integration with Event on Frontend
  - Leave events/Delete event functionality
- Not completed:
  - Customization of Profiles
  - Viewing others Profiles

Work Completion rate:
- total number of user stories completed during the prior sprint:
  - As a user, I want to be able to RSVP for an event
  - As a user, I want to be able to view the user dashboard
  - As a user, I want to be able to click on and view other people's profiles
- Total number of estimated ideal work hours completed during the prior sprint
  - 35 hours
